

IN THE CLAIMS:

A listing of the claims presented in this patent application appears below. This listing replaces all prior versions and listing of claims in this patent application.

1. (Original) A package comprising:
a backing sheet including a light permeable base, a first printing layer, an anti-offset layer and a second printing layer laminated in this order on a first surface of said base; and
a holding means for allowing said backing sheet to hold an article at the side of a second surface of said base.
2. (Original) The package in accordance with claim 1, wherein
said holding means is a container bonded to said second surface with said article accommodating therein.
3. (Original) The package in accordance with claim 2, wherein
said container is bonded to said second surface by heat sealing.
4. (Original) The package in accordance with claim 2 or 3, wherein
at least one of said base and said container comprises a biodegradable plastic.
5. (Original) The package in accordance with claim 4, wherein
said biodegradable plastic is an aliphatic polyester.
6. (Original) The package in accordance with claim 5, wherein
said aliphatic polyester is a polylactic polymer.
